Description:

“Well-written and fascinating . . . this is the kind of book you want everyone to read.”—Cleveland Plain Dealer“Curiosity, awareness, attention,” Laurence Gonzales writes. “Those are the tools of our everyday survival. . . . We all must be scientists at heart or be victims of forces that we don’t understand.” In this fascinating account, Gonzales turns his talent for gripping narrative, knowledge of the way our minds and bodies work, and bottomless curiosity about the world to the topic of how we can best use the blessings of evolution to overcome the hazards of everyday life. Everyday Survival will teach you to make the right choices for our complex, dangerous, and quickly changing world—whether you are climbing

a mountain or the corporate ladder. 6 illustrations

At *Girls Fight Back*, we focus on using your intuition as one of the greatest tools of personal safety. Gonzales examines how the mind works in patterns to make us more safe at times and at other times to put us in more danger. Awareness is always the key, illustrated by the story he tells of a firefighter who sets his watch alarm to go off every hour during a fire. When that alarm goes off, the firefighter uses it as a reminder to stop to, "...look around and question what he's doing, what he's missing, what he ought to notice. Moreover, he stops to consider what he's feeling in his gut too. Maybe there's a signal he is ignoring." We all need a mental alarm to stop and assess to prevent us from going too deep into a "vacation state of mind." He concludes this book by stating, "Although it's easy to pass through life as if in a waking dream, we can enrich our lives, make ourselves more effective, and sometimes even cast a protective web around ourselves and our children, by a habit of knowing—a craving to know—our world and ourselves and by the simple act of consciously paying attention." This is a great read to start you down the path of awareness. Gonzales is also the offer of another great book *Deep Survival*.
